FOR IMMEDIATE RELEASE

FOTOZOOMER LLC SHIPS MAJOR NEW SOFTWARE RELEASE

GREENVILLE, SC, JANURY 2009:
 FotoZoomer announces that they have commenced upgrading current customers with active support contracts to the new FotoZoomer Release 4.0. This new release features a new start up window that will present the various optional applications that are available to customers to use, such as:

- Large Format Prints
- Small Format Prints
- Photo Packages (NEW)
- Instant Signs (Recently Expanded)
- T-Shirts

As new applications are developed and released, this screen will expand with additional selections.

A brand new application we are introducing with this release is **Photo Packages**. This application enables customers to take their digital photos and select a set package of photos to print in one simple step. (See screen shot of package choices).

Release 4.0 also enables owners to set separate price structures not only by media type but by application, e.g. instant signs can have their price structure; photo packages have their price structure, and small/large format prints by media type can have another structure.

Release 4.0 has a new printer setup procedure that significantly simplifies and speeds up your ability to add printers and different media choices to your system.

All current customers under an active support contract will be upgraded. All new FotoZoomer Systems will ship with Release 4.0.

For more information contact FotoZoomer at: sales@fotozoomer.com or call us at 864.286.6868.
